Inclusion Support Program Guidelines

2016-2017 to 2018-2020

5.4. Accessing specialist equipment through the Specialist Equipment Library

The service's need for specialist equipment ([Section 2.1.3](#)) must be identified through the development of its Strategic Inclusion Plan, or recommended by a relevant professional, such as an occupational therapist or physiotherapist, with knowledge of the child's biomechanical functional needs. If equipment is recommended by a relevant professional, the Inclusion Agency must endorse and agree to the recommendation before an application is submitted.

A Strategic Inclusion Plan must be completed by the service in receipt of equipment through the Specialist Equipment Library within a set timeframe, as agreed by the Inclusion Agency. This means that specialist equipment may be delivered to the service before a Strategic Inclusion Plan is completed, and this consideration will form part of the loan agreement with the Specialist Equipment Library, as determined by the Inclusion Agency.

It is the responsibility of each service accessing equipment from the Specialist Equipment Library to ensure it is fitted by an appropriate professional. In some cases, an occupational therapist or physiotherapist who has knowledge of the child's biomechanical functioning and needs may be required.

Before accessing equipment from the Specialist Equipment Library, the service must sign a Loan Agreement Form with its Inclusion Agency, which sets out the Terms and Conditions associated with borrowing equipment from the Specialist Equipment Library. The process for accessing equipment from the Specialist Equipment Library, including expected timeframes, transportation arrangements, return arrangements and the Terms and Conditions associated with borrowing the equipment are determined by each Inclusion Agency. The Inclusion Agency or inclusion professional will follow-up with the service after receiving the equipment to ensure that the equipment meets the desired needs of the service (i.e., addresses the barriers identified in the Strategic Inclusion Plan) and the equipment is being used appropriately and correctly by educators within the service.

The service can access information about the Specialist Equipment Library directly from its Inclusion Agency. Contact details for the Inclusion Agency in each jurisdiction are available on the [department's website](#)

Moderate Complexity Chairs

Brookfield Chair with Mobility Base

The Brookfield is a robust chair for children from the age of 2 years who require moderate levels of postural support when seated.

The Brookfield has a unique moulded back which promotes central alignment and gives additional support whilst your child is seated.

Its seat height and depth can also be adjusted to suit. As an additional feature, the back can be adjusted in height.

The Brookfield comes complete with a moulded back, contoured seat, pelvic strap and height adjustable arms as standard.

A static or mobile version is also available as well as a choice of high or low back. Available as a static or mobile chair.

For prescribing Therapists, please refer to the Smirthwaite website for details on sizes and accessories available.

<p>Rifton Compass Chair</p>	<p>The contoured seat and sturdy armrests provide reassuring boundaries, giving mildly involved students the support they need to feel secure and comfortable.</p> <p>The five available sizes accommodate everyone from small children to adults, and the adjustable legs allow fine-tuning for optimal positioning.</p> <p>For prescribing Therapists, please refer to the Rifton website for details on sizes and accessories available.</p>	
-------------------------------------	--	---

<p>Leckey - Easy Seat</p>	<p>The Easy Seat is suitable for a child who needs a kinder chair with extra support.</p> <p>It has adjustable armrests, footplate, and pommel, and additional side supports are available.</p> <p>Available in sizes 1, 2, and 3, each of which can be adjusted for growth.</p> <p>It is height-adjustable to enable a child to sit at a kinder table and participate in group activities.</p> <p>For prescribing Therapists, please refer to the Leckey website for details on sizes and accessories available.</p>	
<p>DES - Kelly Chair</p>	<p>The Kelly chair is suitable for a child who needs a kinder chair with extra support. It has adjustable armrests, footplate, and pommel and tray.</p> <p>Available in pre-school and primary sizes, each of which can be adjusted for growth.</p> <p>It is height-adjustable to enable a child to sit at a kinder table and participate in group activities.</p> <p>Measurements of chair: - W 33CM H 55CM L 45CM</p>	

Smirthwaite
Zoomi Seat

With multiple options to cater to a variety of users, the Zoomi is simple to configure. Both the seat and footrest are easy to adjust to the appropriate height and depth allowing the chair to accommodate to the child's needs.

Standard Zoomi chair comes complete with flat seat and backrest and pelvic strap as standard.

Accessories for this chair are - low back padded cover, armrest, quick release tray, 5-point harness, flat padded seat, slotted footrest and mobile skis, it offers the ideal solution for children who require a little extra postural support.

For prescribing Therapists, please refer to the Smirthwaite website for details on sizes and accessories available.

<p>Star X Chair</p>	<p>The Star X Chair is suitable for a child who needs extra seating support.</p> <p>It will accommodate a child from approximately 12 months to 4 years.</p> <p>It includes a range of adjustable positioning supports including thoracic, hip, and foot supports.</p> <p>The Star X Chair can be moved up to a table (depending on table height) to enable participation in group activities.</p> <p>Equipment measurement: - H 70CM W 43CM L 60CM</p>	 A blue Star X Chair with adjustable supports and a footrest. The chair has a high backrest, armrests, and a footrest. It is designed for children who need extra seating support.
---------------------	---	---

<p>Medifab – Neat Zeat Seating System</p>	<p>The Neat Zeat offers a modular indoor seating solution for activity, feeding and learning opportunities. Constructed of durable hardwood with a lacquer finish. Height adjustment grooves on the frame provide a huge growth range that can be easily adjusted with an Allen key. Three packages are available, with the addition of further accessories to script according to individual requirements. Neat Zeat is previously known as the Zeat Seat.</p> <p>For prescribing Therapists, please refer to the Medifab website for details on sizes and accessories available.</p>	
<p>Rifton Activity Chair – Alternative configurations</p>	<p>The Rifton Activity Chair offers a wide variety of features and accessories including a hi lo base, making it an option for most children with special needs.</p> <p>No tools required for adjustments while the child is sitting in the chair.</p> <p>The Tilt-in-Space option has a built-in feature offering 15 degrees of forward tilt and 15 degrees of backward tilt.</p> <p>For prescribing Therapists, please refer to the Rifton website for details on sizes and accessories available.</p>	

Low Complexity Chairs

--	---	---

Positioning System

Leckey Firefly Playpak

This lightweight bag contains an entire activity centre.

Inside you will find rolls, wedges, and supports (designed by clinical experts) that stick together in dozens of different ways to let you and your child practice the early positions which form the building blocks for later abilities.

Equipment measurements in bag: - H 20CM W 45CM L 45CM

<p>Positioning System</p> <p>Scooped Wedge with or without Detachable Headrest</p>	<p>Allows patient to be positioned in prone - good positioning for eliminating the effect of gravity present when individual is upright.</p> <p>Allows patient to be positioned to stretch flexed hips and knees. Scoop shape decreases chance that child could roll off wedge.</p> <p>Headrest is useful for child with poor head and neck extension.</p> <p>Equipment measurements: - H 30 CM (at high end of wedge) W 43CM L 150CM</p> <p>For prescribing Therapists, please refer to the Glentham website for details on sizes and accessories available.</p>	 A photograph of a red and yellow scooped wedge, a piece of physical therapy equipment. The wedge is primarily red with a yellow section at the top. It has two blue straps with black buckles. The wedge is placed on a light-colored wooden surface. In the background, there are shelves with blue containers, suggesting a clinical or storage setting.
---	--	--

**Accessories
and Other:**

Jenx -
Nursery
Tables

The Jenx Nursery Table is available in two sizes to work with the Jenx Corner Seats.

It's a sturdy table with a large, clear surface area that is big enough for a child to play or work at most activities with ease. The table (and its surface) are ideal for drawing and writing activities.

Equipment measurements: - H 45CM W 70CM L 50CM

Toilet Support -
High Backed

Supplied with a harness for full trunk support.

Smaller model is intended for children up to 10 years.

Reduced seat depth (RSD): sits 4" forward to lessen seat depth when attached to U-Shape Mounting Base.

Dimensions of supports - height adjustable 19-24 inches; width at top 8" and width at bottom 12".

Toilet Support -
Low Back

Designed to fit any school toilet, the toilet supports strong and secure frame allows it to be easily adjusted for maximum user control and comfort, and allows the low back toilet support to be quickly removed when not in use for easy storage.

6. Manual Handling Aids and Appliances

Manual Handling Aids and Appliances		
<p>Hoists – Battery Operated - Rechargeable</p>	<p>The mobile hoist is suitable for situations where manual lifting of a child is not viable, usually for a larger child who is not walking and is unable to do a standing transfer.</p> <p>It is useful for lifts across short distances, usually to and from specific positions, for example from chair to change table or chair to floor.</p> <p>Slings are available in a variety of styles depending on the amount of support required.</p> <p>The mobile hoist is powered by a rechargeable battery and is operated with a hand-held control.</p> <p>Equipment measurements: - H 50CM W 65CM L 105CM</p>	

<p>Hoisting Slings</p>	<p>Manufactured under the highest quality control standards.</p> <p>The extremely durable slings come in a range of fabrics and sizes to suit the individual child when used in conjunction with an electric powered hoist to assist educators and staff with toileting needs.</p> <p>Various sizes stocked in Library.</p>	
<p>Wheelie Stool</p>	<p>The wheelie stool is a mobile, height-adjustable stool designed to enable staff to work with children without bending or twisting.</p> <p>It has a wheeled base, an upholstered seat which can swivel a full 360 degrees and gas-assisted height adjustment.</p> <p>It enables staff to work at the level of the child for feeding, seated activities, and supported standing and walking.</p>	

Wooden Stool
on Castors

Height adjustable with screws with a vinyl padded seat and a
wheeled base for educational staff.

Equipment measurements: - H 36CM W 40CM L 14CM

7. Physical Activity Devices

Bicycles, Full Support Swings, PMP Gross Motor Steps and Ramps

Supportive Tricycle

The Supportive Tricycle is suitable for a child who is unable to use a regular tricycle.

It can be adjusted to accommodate a child from approximately 3 to 6 years and includes a range of adjustable positioning supports.

The Library stocks a variety of sizes.

<p>Full Support Swings</p>	<p>The Full Support Swing seat is suitable for a child who needs a swing seat with extra support.</p> <p>It is available in three sizes (the range accommodates children from approximately 2 years to adult) and provides trunk and head support.</p> <p>The full support swing seat will fit onto standard “pigtail” swing hooks and can be adjusted in height and angle of recline.</p> <p>Equipment measurement: - H: 56CM x W: 33CM x L: 30 weight limit 45KG</p>	 A blue plastic full support swing seat is shown from a top-down perspective. It features a central seat area with two vertical supports on either side, likely for head and trunk support. The seat is suspended by two yellow straps that converge at a metal hook at the top. The seat has a slightly curved, ergonomic shape.
----------------------------	--	--

Full Support
Swing Seat -
JennSwing
Adaptive Swing

JennSwing semi-reclined design offers upper and lower body support with added leg rest.

The arm rests provide lateral support. Includes easy adjustable 5-point safety harness that secures the child by both shoulders and there waist.

The seat is 14" wide x 11" deep.

The seat back is 24" high and knee to foot length is 14" long.

It is 45" overall and has a 3/16" thickness.

This special needs swing seat is for children weighing up to 56.7kg.

There is a fully adjustable safety harness that securely locks the child into place.

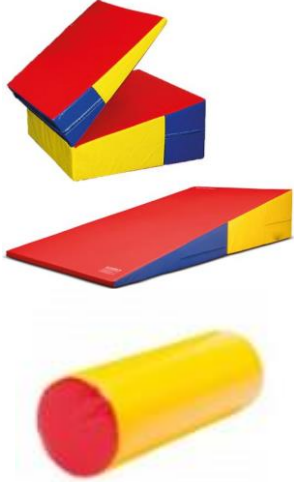

Supplied with 7ft chain length.

Attaches to most swing sets quickly and easily with S-hooks.

Please note measurements are in inches.

For prescribing Therapists, please refer to the Sportsplay Inc. website for details on sizes and accessories available.

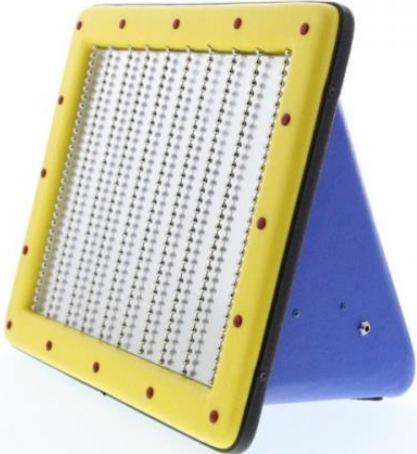

<p>Vinyl Wedges and Shapes</p>	<p>The Library has a variety of sturdy and waterproof equipment that can promote inclusion and play activity.</p> <p>Types of equipment are wedges including scooped, various sized cylinders, and different shaped animals including Loch Ness and Elephant, soft-sided See Saw and double sided – 2 steps.</p> <div style="display: flex; justify-content: space-around;">   </div>	
<p>Fixed Wooden Step</p>	<p>Equipment measurement: - Fixed height L 30CM W 37CM H 30CM</p>	

<p>Platform Steps</p>	<p>Platform to help assist children with posture when sitting and accessing benches.</p> <p>The Library stocks a variety of sizes.</p>	 A photograph showing two wooden platform steps of different sizes placed on a light-colored wooden desk. The step on the left is larger and has a blue top surface. The step on the right is smaller and has a light-colored top surface. The desk is supported by a metal leg.
-----------------------	--	---

8. Bead and Mirrored Stands

Bead and mirrored stands		
Bead Chain Stand with Lights and Music	<p>These popular bead chains have a unique design for users who can reach through to the base.</p> <p>When a hand passes over the light sensor, a red light blinks and music plays. This provides wonderful visual, auditory and tactile experiences.</p> <p>Height: 30cm</p> <p>Requires 4 size AA Batteries</p>	 A yellow and blue bead chain stand. It features a yellow top bar and a yellow base. Two blue vertical posts support the structure. Between the posts, there are numerous vertical strings of small, colorful beads (red, blue, yellow, and white). The base has three small red lights and a central white light.

<p>Sensory Plate Switch</p>	<p>Provides stimulating feedback specially designed for the individual who requires exceptional sensory input, this 13cm x 20cm bead chain and unbreakable plastic mirror plays music, small red light is activated, and the unit vibrates when touched. The Sensory Plate can also be used as an external switch without vibration, music and/or lights when connected to a toy or device.</p> <p>Size: 30cm x 21cm x 7.5cm.</p> <p>Requires 2 size C Batteries.</p>	
<p>Mirror with Beads and Lights</p>	<p>Encourages exploration!</p> <p>Mirror provides tactile and visual reinforcement. Playing with the beads will activate lights, vibration and music, while the soothing chains provide unique tactile stimulation. Vibration sensitivity is adjustable.</p> <p>Can be used as a switch to activate devices. Can be used on the floor or a table. Lights, vibration and music can be turned on or off by hidden switches.</p> <p>Requires 6 size AA Batteries.</p>	

Multi Bead Chain Lights and Music

This innovative Multi Bead Chain is great for developing the concept of cause and effect.

Movement of the beads will turn on a built-in music box. If the beads are making contact with the metal bar, the music stays on. Can also be used as an external capability switch without music when connected to any toy or device.

Size: 32cm H x 37cmL x 27cmW

Requires 2 size AA Batteries

<p>'Razzle Dazzle' Bead Chain with Music</p>	<p>The Razzle Dazzle Bead Chain Curtain provides hours of somatosensory stimulation.</p> <p>Moving the beads will turn on a built-in music box. These colourful beads are inviting to reach for and touch and help teach cause and effect.</p> <p>Works as a switch or as an independent toy. When used as a switch, the movement of the beads activates the music as well as an external toy or device.</p> <p>Size: 37.5cm tall x 27cm x 32cm Requires 2 size AA batteries</p>	
<p>Somatosensory Bead Chain with Mirror</p>	<p>What's behind beaded curtain? Surprise!</p> <p>It's an unbreakable plastic mirror that reflects the face of the user!</p> <p>A terrific toy that provides visual and tactile stimulation and body identification!</p> <p>No batteries required</p>	

9. Switch Adapted Toys and other Toys

Switch Activated Communication Devices and Toys		
<p>Compact Activity Centre – Sensory Toy</p>	<p>Specially designed for children with limited mobility.</p> <p>This small-scale activity centre is designed to provide sensory stimulation and cognitive activity. Great for the user whose physical mobility may be limited due to positioning needs.</p> <p>Features a bead curtain, a dome with brightly coloured sequins which spin when the button is pressed, a textured plate which vibrates and lights up when pressed, and a pull ball that turns on a music box.</p> <p>Requires 2 size C batteries to operate.</p>	

<p>Five Function Activity Centre – Sensory Toy</p>	<p>There are 5 different switches built into the brightly coloured activity centre. Each has a different function that has been designed to stimulate sensory awareness, hand-eye coordination and aid in teaching cause and effect:</p> <ul style="list-style-type: none"> • The bright yellow plate activates a built-in AM/FM radio. • The large red plate vibrates when pressed. • Moving the wooden roller sounds a buzzer. • A pull ball turns on a music box. • The large orange plate turns on a light. <p>Size: 96.5 x 71 x 10 cm</p> <p>Requires: 2 size C batteries</p>	
<p>Music Blocks - Musical Toy</p>	<p>Each colourful block plays a different phrase of music and each side of each block plays a variation of that phrase. You can just touch or mix and match and rearrange the blocks to create their very own musical compositions. Mozart's Night Music.</p> <p>High quality CD-like digital sound. A light comes on when a block is touched. The red button at the front can also be pressed for a musical note. Requires batteries 4 AA.</p>	

<p>Switch Toy – Bongo Bright Beats 2 in 1 Musical Drum Roll</p>	<p>Musical Drum Roll is an infant drum for sitting or crawling babies and toddlers with music, sound effects, and lights. It features two modes of music and sound - Drum Beat Mode and Jam-Along Mode. Sensory toy also has clacker beads, and a colourful roller ball.</p> <p>Press your capability switch to hear up beat sounds, music & lights.</p> <p>Requires batteries and an additional switch for operation.</p>	
<p>Switch Toy – Ferrari Remote Control Car</p>	<p>The remote control has been switch adapted. Allowing drivers to control the vehicle with two easy-to-use directional buttons. It helps the user to grow their hand-eye coordination skill and imagination skill.</p> <p>Attach your switches to drive forward press your other switch and it turns in reverse</p>	

<p>Switch Toy - Motorized Glitter Roll Music Box</p>	<p>The Motorized Glitter Roll Music Box works with an external capability switch.</p> <p>When the switch is activated, the potpourri of sparkling shapes will tumble as the sweet-sounding music plays.</p> <p>Terrific for increasing auditory and visual stimulation.</p> <p>Size: 35cmL x 20cmW x12cmH.</p> <p>Requires Capability Switch and 2 C Batteries which are not included.</p>	
--	--	---

Switch Toy –
My Little Puppy

He flaps his ears and claps along to "If You're Happy and You Know it, Clap your Hands".

Requires 3 'AA' Batteries

For prescribing Therapists, please refer to the Cuddle Barn website for details.

<p>Switch Toy – Nemo</p>	<p>A switch adapted toy that provides cause and effect when switch is activated by the child.</p> <p>Requires batteries and an additional switch for operation.</p>	
<p>Switch Toy - Pudgy Piglet</p>	<p>Hold down your switch and watch pudgy piglet walk and make animal sounds.</p> <p>Cute and cuddly, these toys will provide sensory feedback and promote play with other children.</p> <p>Switch is not included.</p> <p>Requires batteries for operation.</p>	

<p>Switch Toy - Remote Control Car</p>	<p>Double switch adapted remote. Press your switch to drive forward. Press the other switch to turn. Car 18cm x 9cm x 12cm H</p> <p>Controller approximately 10cm in diameter</p> <p>Switches are required to operate this toy.</p> <p>Requires batteries for operation</p>	
<p>Switch Toy - Ring Around Bells</p>	<p>You can use this wonderful musical toy in four different ways: activate the attached yellow switch and the colourful bells twirl around, sounding the musical scale while the multi-coloured LEDs blink, or use a capability switch to activate the toy.</p> <p>Ring Around Bells is excellent for music therapy and music time. The bells are precision tuned and provide exceptionally clear sounds.</p> <p>Size: 30cmL x 35cmW x 25cmH.</p> <p>Requires 4 size C Batteries.</p>	

<p>Switch Toy – Robot</p>	<p>A switch adapted toy that provides cause and effect when switch is activated by the child.</p> <p>Requires batteries and an additional switch for operation.</p>	
<p>Switch Toy - Textured roller</p>	<p>This captivating device provides a very special somatosensory experience for children.</p> <p>Bumps on the switch offer tactile stimulation and help hand-eye coordination.</p> <p>Roller switch can be used as a switch-only when you spin the drum and the unit is activated - or as a switch-toy when you spin the drum to activate lights vibrations and music.</p> <p>Requires 2 size AA batteries.</p>	

<p>Switch Toy - Thomas the Tank Engine with Remote Control</p>	<p>Follow Me Thomas's controller has been switch adapted for him to chug along in a large 2m circle, with sound and music to capture the child's attention.</p> <p>Requires 2 size AA batteries.</p>	
<p>Switch Toy - Wheelie the Soft Bus</p>	<p>Wheelie the soft bus is switch adapted and moves gently side to side with his mouth opening and eyes lighting up singing "Wheels on the bus"</p> <p>Song plays for 1 minute & 24 seconds; you can press your switch to turn off midway through the tune.</p> <p>23cm long x 15cm wide</p> <p>Requires 3 size AAA batteries</p>	

<p>Various Weighted Toys</p>	<p>Weighted stuffed animals are the ultimate sensory toy.</p> <p>The varied shapes, sizes and textures of our furry friends are not only appealing, but they allow for weight to be distributed where it's needed most.</p> <p>Children of all ages and sizes to benefit from the calming effect of deep sensory, proprioceptive, and tactile sensory input.</p>	 A photograph of a golden retriever puppy lying down on a white surface. The puppy is facing left, with its head resting on its front paws. It has a soft, fluffy coat of golden-brown fur.

10. Key Word Sign and Auslan Based Resources

Kits, Books, Posters and Dictionaries		
<p>Auslan – Set of Flash Cards for Beginners</p>	<p>Everyday vocabulary in easy to remember signing pairs. For example - Girl / Boy / Please / Thank You / Hot / Cold</p> <p>These signs have been selected to provide high reward-benefit for young children when they utilise the signs, making them easily adoptable into daily vocabulary.</p>	 A photograph showing three Auslan flash cards on a wooden surface. The top card is titled 'Drink' and shows a person holding a cup. The middle card is titled 'Happy' and shows a person with their arms outstretched. The bottom card is titled 'Wiggle Fingers For Attention' and shows a person with their fingers wiggling. Each card includes a small illustration of the person signing and some text.

Auslan Baby Sign Book -
ITSY BITSY SPIDER

This delightfully illustrated board book will help your child or children learn Auslan through song.

The book was produced in the UK using BSL (British Sign Language). This is an Australian modified edition to include three insert stickers inside the book for the 1 sign that are different from Auslan (Australian Sign Language).

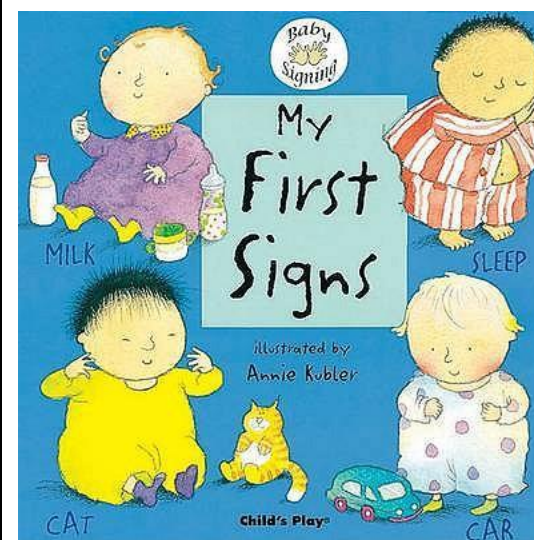

Auslan Baby Sign Book – MY
FIRST SIGNS

This beautiful picture dictionary board book depicts over 50 commonly adopted baby/toddler signs.

Each sign is clearly depicted, with descriptions of how to do the sign and colourful illustrations of the object being signed.

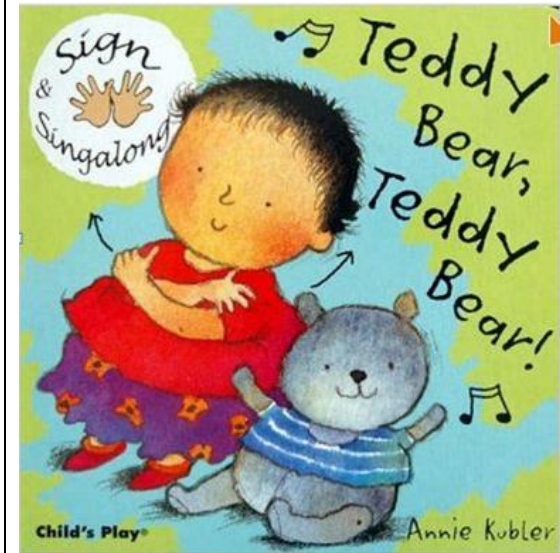

Written in BSL, this edition includes insert stickers for Auslan variations.

Auslan Baby Sign Book – TEDDY BEAR, TEDDY BEAR!

This delightfully illustrated board book will help your child or children learn Auslan through song.

The book was produced in the UK using BSL (British Sign Language). This is an Australian modified edition to include three insert stickers inside the book for the 1 sign that are different from Auslan (Australian Sign Language).

Auslan Books - Various Posters and Flash Cards

By teaching simple sign language to children from as young as seven months, we can help them to convey their emotions and their needs, as well as giving them a valuable head start in their social and intellectual development.

Auslan Puppet
Set & DVD –
Old Woman
who Swallowed
a Fly

The soft cover book is 29 X 29 cm and includes holes in each page that gradually get bigger to reveal the animal inside her.

The doll has a large mouth and can actually swallow each of the bean filled animals as you go through the story.

Great to help children visualise what is happening!

Auslan Puppet
Set – Five
Speckled Frogs
with Song
Sheet & 7
Finger Puppets

The back of the song card includes detailed descriptions of how to sign all the insects, plus larger versions of the sign illustrations

The set also includes a large green frog full hand puppet with wide opening month; and 6 insect finger puppets:

Furry Bee (9cm furry body with clear wings)

Beautiful Butterfly (9.5 cm wingspan, silk like body)

Hairy green and Yellow Caterpillar (9.5 cm long)

Dainty Ladybug (8cm wide)

The Giant Snail (10 cm tall)

The Hairy spider (8cm long with a big smile)

All finger puppets have elasticised entrances so that they stay firm on child and adult fingers.

11. Environmental Aids and Appliances

Grab Bars, Suction Rails and Ramps		
<p>Stabilising Horizontal Grab Bars and Vertical Anchor Grab Bars</p>	<p>The Stabilising Grab Bar encourages the child to bring the arms forward to stabilise, improving posture and increasing access to activities.</p> <p>It consists of a horizontal or vertical bar that attaches to the tabletop with suction cups, and can be used on the table or tray provided with a chair or standing frame.</p>	
<p>Suction Grab Rail</p>	<p>Suction grab rails are lightweight and portable, featuring a durable commercial grade suction cup making them the strongest in the market.</p> <p>Easy to install and removes without any tools.</p>	

<p>Depac Ramps</p>	<p>Portable folding ramps measuring 2 metres long.</p>	
<p>Easy Access Portable Ramps</p>	<p>Easy access ramps are a lightweight, yet portable ramp designed for doorways, sliding glass doors, and raised landings. One metre in length.</p>	

<p>Threshold Ramp - Small and Large Sizes</p>	<p>A small threshold ramp designed for use in doorways, sliding glass doors and raised landings.</p> <p>The Library has a variety of sizes stocked.</p>	
<p>Steps with Rails</p>	<p>Designed for assisted child access to change tables.</p> <p>Construction is lightweight and the handrails are adjustable in height.</p> <p>Equipment measurements: - H 73CM W 52CM L 70CM</p>	

12. Switches and other Accessories

Accessories		
<p>Big Keys Computer Keyboard</p>	<p>Big keys keyboards for computer access provide users large, high-visibility keys that are easy to see.</p> <p>In addition, for users who lack fine motor movements, the larger keys provide a larger strike area that is easier to access compared to standard keyboards.</p>	
<p>Campus SX and Microphone Boom with Case</p>	<p>Campus SX is a dedicated Phonak FM transmitter for educational applications when used in combination with Micro Boom.</p> <p>Professionals, teachers, educators and children benefit from maximum flexibility and user comfort.</p>	

Computer
Mouse
Assistance -
Switch
Adapted
Version

The BIGtrack Trackball Switch Adapted has a 3 inch trackball which makes it the largest trackball available. The large ball requires less fine motor control than a standard trackball and it is ruggedly built. It has a left and a right mouse click button located behind the trackball to avoid unwanted mouse clicks.

The BIGtrack trackball also allows for 2nd Mouse Connection both the BIGtrack and a second mouse can be connected allowing simultaneous participation. The bright large 3" trackball helps to make mouse movements easy and accurate. While the oversized buttons make mouse clicks simple for those with poor motor control.

For even more access this switch adapted version comes with two standard 1/8" plugs for two switches. Its left and right mouse clicks have been adapted so that you can use a switch for activation. This large trackball is also perfect for kids of all ages, especially children in preschool. The large trackball is easy on little hands and is simple to use.

The BIGtrack Switch Adapted is easy to install and works on any Windows or Macintosh computer that has a USB or PS/2 port.

Phonak
Digimaster
5000 kit
including
Speaker with
stand and
Pass-around
Mic

The Phonak's DigiMaster 5000 innovative loudspeaker array features no less than 12 individual high-quality loudspeakers, all housed in a robust aluminium frame.

The DigiMaster 5000 array emits cylindrical sound waves at the most important speech frequencies, ensuring that the required sounds are carried effectively across a large area, while generating very little speech-hindering 'late reverberation' or echo. The DigiMaster 5000 is supplied with a sturdy floor stand

The Pass-around Mic can be handed from one child to another, allowing the child who is wearing Roger Receivers to hear not only the teacher/educator but also other children's comments.

<p>Little Step by Step Communicator</p>	<p>Record any series of messages directly into the Little Step-by-Step Communicator and press its activation surface for the first message. Press it again and Step-by-Step automatically plays the next message in a sequence.</p> <p>Step-by-Step communicators allow children with even the most limited communication abilities to take turns in "an essential conversation."</p> <p>Each message in the sequence can be as long or short as needed.</p> <p>The total number of messages is only limited by the 2 minute recording time.</p> <p>Requires batteries to operate equipment.</p>	
---	--	---

<p>Switch – Big Mac Communicator</p>	<p>Record any single message directly into the Big Mac and press its large activation surface for up to 2 minutes of playback.</p> <p>Students with visual disabilities and those who require a larger activation surface will have no problem connecting with BIG Mac communicator's large, 13cm (5-inch) activation surface as they connect with teachers, educators, children, and the world around them.</p> <p>Requires batteries to operate switch.</p>	
<p>Switch – Big Red</p>	<p>Large colourful surface makes this switch ideal for children with visual, cognitive, or physical requirements.</p>	

<p>Switch – Jelly Bean</p>	<p>Low profile circular switch on mounting plate for wheelchair tray or tabletop. Responsive across entire surface.</p> <p>Range of colours available. Switch can be mounted on small triangular plate, or two or four-place rectangular plate.</p> <p>Twist model enables switch tops to be interchanged with one of a range of colours.</p>	
<p>Switch - Smiley face</p>	<p>Switches enable children with severe disabilities to experience cause and effect, to play and have fun, and to interact with their environment.</p>	

<p>Switch - iSwitch</p>	<p>A bluetooth switch for wireless switch access to iDevices</p> <p>iOS 7 – iOS 11 Switch Control</p> <p>Works with iPad (all models including Pro / Air / Air 2 / 2-6, iPad Mini 1-3), iPod Touch 3-5, iPhone 3GS, 4</p> <p>Bluetooth wireless interface - 75mm diameter) switch</p> <p>For prescribing Therapists, please refer to the Spectronics website for details on sizes and accessories available.</p>	
-----------------------------	---	---

<p>Switch Glitter Roll Music Box</p>	<p>This innovative switch provides hours of multi-sensory stimulation with its roller action and built-in music box. The clear, cylindrical roller contains a potpourri of sparkling shapes. Roll it to activate the music base. Can also be used as an external capability switch without music when connected to a device - lead supplied</p> <p>Size: 35cmL x 17cmW x 12cmH. Requires 2 AA Batteries. Weight: 800grms.</p> <p>*** This device cannot be activated by a switch; it is manually rotated and when you use the switch lead it will activate another switch adapted toy ***</p>	
--	--	---
