

SPECIALIST EQUIPMENT COMPETING IMPACTS

SIP ID

Supplier – Local or overseas. This can impact on expected delivery date. Courier delivery requirements and SIP support A completed SIP identifies that equipment will overcome Barriers to Inclusion.

Specialist Equipment Library

At times more specific size information is required or even an alternate piece of equipment may be suggested to meet the same need. This is negotiated with a therapist. If this is the case SEL will engage with the therapist, service, IP re: this. It is expected that the Service will communicate with the family about any changes. Inclusion or Therapy

Inclusion expectations Does the suggested equipment support the child's access and participation?

Specific Requirements of equipment - will the size of equipment fit in the service, where will the equipment be stored? How will the service ensure the equipment can be used safely?

> Do the staff need to be trained to use the equipment?

SEL sends loan agreement to service. Equipment is not ordered or sent until documentation is returned by the service. Does the service understand their obligations under the SEL guidelines?
